Solutions that help Nonprofits transform their organization:

- **Analytics and Reports:** Deeper insights with customized reports to measure impact and make informed decisions.

- **Enhance Collaboration:** Internally as well as with service partners.

- **Integration:** With numerous extended services tools like Mailchimp, QuickBooks, Google Workspace, Microsoft 365, and more.

- **Payment Integration:** Secure online payment through preferred Payment Gateway service provider.

- **Modular:** Implementation for a wide variety of nonprofit entities – Orphan sponsorships, Refugee management, and a variety of support services.

- **Administration:** Robust management capabilities and role-based access.

- **Donor Management:** Track donations and enable profile-based fundraising campaigns.

- **Flexible Donation Options:** User-friendly options for donations – one-time or recurring (yearly, monthly, weekly, and daily).

- **Case Management:** Initiate requests, assign responsibilities, track progress, capture data, improve quality, and ensure transparency.

- **Volunteer Management:** Streamline resource coordination, increase involvement, track events and projects, and form a sustainable volunteer community.

- **Streamline Operations and Communication:** By minimizing manual work, enhancing productivity, and automating personalized communication.

- **Program Management:** Track the delivery and impact by better managing services, participants, and outcomes.

Client Testimonial

"

Big Instance has been an excellent partner in designing and implementing the Salesforce system that meets our needs, providing us with technical advice to maximize the use of NPSP. Salesforce NPSP is now our single cloud platform, used across multiple functional areas.
